

Letter of Design Assurance / Performance Warranty

Product Name: Prysmian PRYSUN (PV) H1Z2Z2-K Cables

We hereby confirm a long-life design assurance in our supply of **Prysmian PRYSUN (PV) H1Z2Z2-K** cables on the following terms:-

- 1) The cables are ordinarily expected to have a service life of 25 years.
- 2) In the event of defects arising from manufacturing processes, the faulty cables shall be replaced within 2 years from the date of delivery.
- 3) The cables must be stored in acceptable storage conditions prior to installation.
- 4) Cables must be handled as according to the relevant code of practice, before, during and after installations.
- 5) Installations of cable must be in compliance to the relevant national code of practice.
- 6) Cable installers must be suitably skilled and competent.
- 7) Specifications on bending radius and pulling tension of the stated cables above must be strictly adhered to with no compromise in all circumstances.
- 8) Special protection is required when the cables are running within corrosive environment or when the cables are likely to be exposed to solvents, petroleum or any other chemical components.
- 9) This design assurance will not cover any defects due to:
 - Wear and tear
 - Damage caused by animals such as rodent, termite or vermins.
 - Improper storage
 - Improper handling or installation
 - Improper maintenance
 - Improper applications
 - Natural disasters (earthquake, lightning strikes, flood, etc)
